GraphQL with React

Viachaslau Suravets

Senior Frontend / Fullstack Engineer @ 1stDibs | React, TypeScript, Node.js, GraphQL

Bialystok Metropolitan Area

Summary

Senior Fullstack Developer | React · TypeScript · Node.js · GraphQL | 7+ years Frontend-first engineer with hands-on backend experience. On the client — React and TypeScript. On the server — a Node.js GraphQL server sitting between the client and our backend services: schema design, resolvers, and shaping the API around what the UI actually needs. Earlier I worked with Node.js, Express and Sequelize, including database models and migrations. 7+ years building production web applications, from early-stage startups to a large established codebase. Core stack: TypeScript, JavaScript (ES6+), React, GraphQL (client and server), Node.js, Express, REST, SQL/Sequelize.

Experience

1stDibs

Senior Frontend Developer

November 2023 - Present (2 years 10 months)

Cinemo

Sr Frontend Developer (via Andersen Lab)

March 2023 - October 2023 (8 months)
