SUMMARY

Senior Frontend / Fullstack Engineer with 7+ years building production web applications, from early-stage startups to a large, high-traffic marketplace. Frontend-first (React, TypeScript) with hands-on backend ownership: a Node.js GraphQL BFF layer between the client and backend services — schema design, resolvers, and shaping the API around what the UI actually needs. Earlier backend experience with Node.js, Express and Sequelize (models, migrations, REST endpoints). Experienced in microfrontend architectures, testing (Jest, React Testing Library, Playwright), code review, mentoring and technical interviewing.

CORE SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js, Redux / Redux Toolkit, RTK Query, Apollo Client, React-Relay, Microfrontends (single-spa), Tailwind CSS, Chakra UI, Styled Components, HTML5, CSS3/SCSS

Backend: Node.js, GraphQL (schema design, resolvers, BFF), Express, REST API, PostgreSQL, MySQL, Sequelize, SQL

Testing: Jest, React Testing Library, Playwright (E2E), TDD

Tooling & Cloud: Git, GitLab CI/CD, Webpack, ESLint, Prettier, Docker, AWS Serverless, OpenSearch, Google Analytics, Figma, Jira

Practices: Agile / Scrum, code review, mentoring, technical interviewing, cross-timezone collaboration

Architecture: frontend system design, micro-frontends, GraphQL BFF, design systems, performance optimization, scalability for high-traffic apps

EXPERIENCE

Senior Frontend Developer — 1stDibs · Remote (Poland) · New York product team Nov 2023 – Present

Luxury e-commerce marketplace; large React + TypeScript codebase serving high traffic.

- Deliver end-to-end features across a large React + TypeScript marketplace, working day-to-day with a New York-based product team from Poland.
- Own the Node.js GraphQL BFF layer between the client and backend services: schema design, resolvers, and keeping the API shaped around what the UI renders.
- Build and maintain automated test coverage — unit and integration tests with Jest and React Testing Library, end-to-end tests with Playwright.
- Participate in code review and conduct technical interviews for frontend candidates.

Senior Frontend Developer — Cinemo (via Andersen Lab) · Kraków, Poland Mar 2023 – Oct 2023

Automotive media-delivery and infotainment software (German product company).

- Embedded as a senior engineer alongside the in-house team to build the frontend of an in-car infotainment platform.
- Developed a single-spa microfrontend in React and TypeScript with Redux Toolkit and RTK Query as the data layer.

Web Developer → Senior Frontend Developer — Tribal (via Exposit) · Gdańsk, Poland Oct 2020 – Mar 2023

Fintech product (corporate cards and credit for startups); promoted to Senior in Jan 2022.

- Spent 2.5 years on one product built as single-spa microfrontends: React, TypeScript, Redux, Chakra UI, REST.
- Delivered features, refactors and long-horizon maintenance of a growing codebase.
- Acted as deputy to the engineering manager — ran the team's day-to-day when they were away.

Mentor — HTML Academy · Remote May 2022 – Sep 2022

- Ran code reviews and one-to-one sessions for students learning frontend fundamentals (JavaScript, layout).

Frontend Internship Lead — Exposit · Hrodna, Belarus Jul 2021 – Sep 2021

- Wrote the curriculum, taught sessions, ran weekly code reviews and selected interns ready to join delivery teams.

Junior Full-stack Developer — Cogniteq · Hrodna, Belarus Nov 2019 – Oct 2020

- Worked across the stack: React with redux-saga on the client; Node.js, Express and Sequelize on the server, including database models and migrations; tests in Mocha.

Junior Web Developer — Upwork (freelance) · Remote May 2019 – Oct 2019

- Delivered client websites and small applications solo against a brief (JavaScript, HTML, CSS).

EDUCATION

Bachelor's, Production Organization and Economy — Belarusian National Technical University 2012 – 2018

Diploma — Grodno State Polytechnic College 2006 – 2010

HTML5, CSS3, JavaScript — IT Academy
